Gameplay Overview

Citadel: The Palladium Wars combines the strategic depth of grand strategy games with the real-time action of space combat. Players begin by selecting a race to lead, each with its own unique strengths and weaknesses. From the technologically advanced Terrans to the enigmatic Xarbians, each race offers a distinct gameplay experience.

The core gameplay revolves around building and managing a vast empire. Players must construct planets, research new technologies, and amass a formidable fleet of warships. Diplomacy plays a crucial role, as players can form alliances, sign treaties, and engage in negotiations. However, conflict is never far away, and players must be prepared to defend their interests with force.

Space combat is an intense and visceral experience. Players command their fleets in real-time, engaging in thrilling ship-to-ship battles. The game features a wide range of warships, each with its own strengths and weaknesses. Players must carefully consider their fleet composition and tactics to outmaneuver and outgun their opponents.
