Materials you will need:

- 1 sheet of 24 gauge wire (silver, gold, or copper)
- 1 pair of wire cutters
- 1 pair of pliers
- 1 round bead (8mm)

- 1 small jump ring
- 1 chain or cord

Step-by-Step Instructions:

Step 1: Create the flower petals

Cut a piece of wire about 24 inches long and fold it in half. Twist the two ends together for about 1 inch. This will create the center of the flower.

Take one end of the wire and make a loop. Pinch the loop closed with your pliers. This will create the first petal.

Repeat steps 4 and 5 to create four more petals.

Step 2: Assemble the flower

Take the five petals and bend the ends of the wire towards the center. Twist the ends together to secure the petals in place.

Take the round bead and thread it onto the wire. This will create the center of the flower.

Step 3: Attach the jump ring

Open the jump ring with your pliers and attach it to the wire. This will create a loop that you can use to attach the pendant to a chain or cord.

Step 4: Finish the pendant

Close the jump ring with your pliers. Trim any excess wire from the ends of the petals.

Your camomile flower pendant is now complete! You can wear it on a chain or cord, or use it to create a pair of earrings or a bracelet.

Tips:

- You can use any color of wire you like to make your pendant.
- You can also use different sizes and shapes of beads to create different looks.
- If you are new to jewelry making, be sure to take your time and follow the instructions carefully.
- With a little practice, you will be able to make beautiful jewelry that you can wear with pride.
