This unconventional strategy may seem foolish at first, but it quickly proves to be incredibly effective. By prioritizing her defense, Maple is able to withstand attacks that would normally knock out other players in a single hit. She can also absorb damage that would normally be fatal, allowing her to stay in the fight long after her opponents have been defeated.

As Maple continues to explore NewWorld Online, she meets a variety of other players who are drawn to her unique playstyle. Together, they form a guild called Maple Tree and embark on a series of hilarious and heartwarming adventures.
